

Uniquely  
positioned  
to keep you  
on target.

*A Foundation of Quality*

**Olenick & Associates'** legal industry team brings years of experience to legal departments and law firms with our technology and strategic consulting services.

### **Strategic Planning**

In today's economic climate it is more important than ever to be efficient with your technology dollars. Olenick can help build a strategic plan that meets both your business goals and your budget. We can review and document current operations; develop a plan to streamline processes for efficiency and accountability; and design an implementation roadmap.

### **Experts in Legal Technology**

**Product/Vendor Selection for Legal Applications:** With our years of experience in the legal market, Olenick is positioned to help you document business requirements; research the market for product/vendor options; develop selection criteria; produce RFPs and evaluate responses for product/vendor selection.

**System Implementations:** Olenick can help evaluate legacy applications, collect requirements, develop specifications, and create/execute an implementation plan for new/upgraded applications. Our engineers have a deep experience with legal applications, networking and software deployments.

**Custom Development:** Where off-the-shelf software doesn't meet the need, Olenick has the resources to build custom applications, dashboards and/or reporting mechanisms. We can also help build interfaces between existing applications to improve efficiency by reducing redundancy of data entry.

**Process Re-engineering:** Olenick resources have years of experience in evaluating current business processes; and establishing new processes with the supporting technologies. These services are available for back office or front office needs. We have particular strategic and operational expertise in eDiscovery functions covering all aspects of the EDRM model.

**Quality Assurance/Testing:** Olenick & Associates is a recognized leader in the quality assurance, software testing, and project management disciplines. We have developed and refined a proprietary Deployment Readiness™ Methodology designed to provide predictability for software testing and information technology projects.

### Making Your Dollar Go Further

Because of our global presence, Olenick & Associates is able to provide the best resources that meet both your budget and your service level demands.

Each of Olenick & Associates senior Legal technology consultants has over 20 years of industry experience; both in the business of running a legal department/firm and hands on experience with the technologies that drive them:

### The Olenick Staffing Difference

**Leveraging our global presence, Olenick & Associates** can offer both managed service and project based pricing to meet your specific needs. Whether you demand ongoing Microsoft infrastructure, custom software development, QA testing or project specific resources, we have the technical professionals to meet your needs and can help you tailor a plan that meets your budget.

We can also provide a secure communication tunnel between properly equipped clients and off-site resources utilizing Microsoft OCS/Lync, greatly increasing team collaboration and cooperation.

Each of our primary lab locations provide distinct advantages, depending on your needs and budget:

#### Chicago

- Best time zone for client collaboration
- Strongest English and U.S. cultural match

#### Buenos Aires, Argentina

- Only 1-2 (depending on US DST) time zones ahead of US Eastern Time
- Up to 50% lower rates than U.S.

#### Belfast, Ireland

- Strong English
- UK Time Zone
- Up to 25% lower rates than U.S.
